Summary

Computer Science and Engineering student at KLE Technological University with a strong interest in software development and problem-solving. Passionate about building scalable applications and learning new technologies. Experienced in full-stack development and machine learning through academic and personal projects.

Education

Bachelor of Engineering - Computer Science and Engineering
KLE Dr. M. S. Sheshgiri College of Engineering and Technology
CGPA: 8.50

Expected Graduation: 2026

Belagavi, Karnataka

Diploma - Computer Science Engineering
Motichand Lengade Bharatesh Polytechnic
Percentage: 84%

2023

Belagavi, Karnataka

High School
Sant Meera English Medium School
Percentage: 73.6%

2020

Belagavi, Karnataka

Skills

Programming Languages: C++, Java, Python, SQL

Web Technologies: HTML, CSS , JavaScript

Databases: MySQL, MongoDB , PostgreSQL

Soft Skills: Problem-Solving, Teamwork, Team Leadership, Adaptability

Projects

Podcast Summarization System with Translation and PDF Report Generation

- Developed a full-stack Podcast Summarization System that automatically extracts, transcribes, summarizes, and translates podcast audio from YouTube or uploaded videos, with instant PDF report generation.
- Built with React and Python, the platform delivers multilingual summaries and seamless user experience for content accessibility.

Wildlife Poaching Detection in Karnataka Using Machine Learning

- Developed an ML model using RNN-LSTM architecture.
- Analyzed sensor and environmental data to predict poaching activities.

Rural Healthcare Connect – Digital Healthcare Platform

- Developed a rural healthcare platform enabling video consultations, real-time chat, AI health assistance, and an integrated online medical store.
- Implemented Firebase authentication, real-time communication with WebRTC and Firestore, and AI-based multilingual guidance with SMS/email alerts.

Virtual Study Room – CI/CD Deployment using DevOps Tools

- Developed a Virtual Study Room web app using ReactJS, containerized with Docker.
 - Set up a CI/CD pipeline using GitHub Actions for automated deployment to AWS EC2 on every code push.
-

Certifications & Achievements

Conference Paper Presentation

- Presented a research paper titled “Wildlife Poaching Detection in Karnataka using Machine Learning” at the 3rd International Conference on Power Engineering and Intelligent Systems (ICPEIS).

NPTEL Online Certification

- Completed NPTEL online course and exam on Introduction to Machine Learning, certified by NPTEL IIT Kharagpur.
